

Seoul Precision

Seoul Precision (SP): Who We Are

Our History

Incorporated

- Incorporated in Singapore in 2009 with professional engineer teams.

Launched

- Launched our design and production for Test Sockets, Docking Systems, and Conversion Kits for reputable test handlers in the semiconductor industries.

Expanded

- Expanded our production into PCBA shop for PCBA Test Jig for engineering bench tests.
- Provided supports and plastic and metal spare parts fabrication in response to customers' satisfaction in our design and service qualities.

Strategic Growth Continues

Team Spirits

Work with our value customers in customized designs and provide cost-saving supports.

Talent-enabled Growth

Continuous improvements of our reputable skills in designs and high fabrication technology

Our Mission

- Provide our customer with excellent product quality and service.
- Strive for greater customer satisfaction and continuous improvement.
- Deliver benefits that will amaze our customers.

Our Core Value

Integrity, Commitment, Competence

Customer Oriented

- We seek to understand our customers' needs.
- We strive to build a win-win relationship.

Quality in All Aspects

- Quality is the responsibility of everyone at SP.
- We believe in doing things right the first time and at all time.

Timeliness

- We are committed to on time delivery to our customer at all times.

Talent Team Development

- We provide environment that promotes personal and professional development for our talents.
- We encourage employees' involvement in activities through teamwork.

Competitive Prices

- We offer quality value at competitive prices

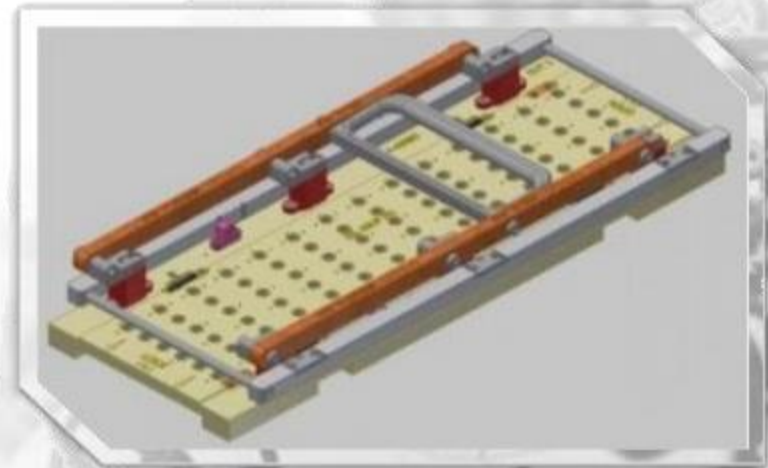

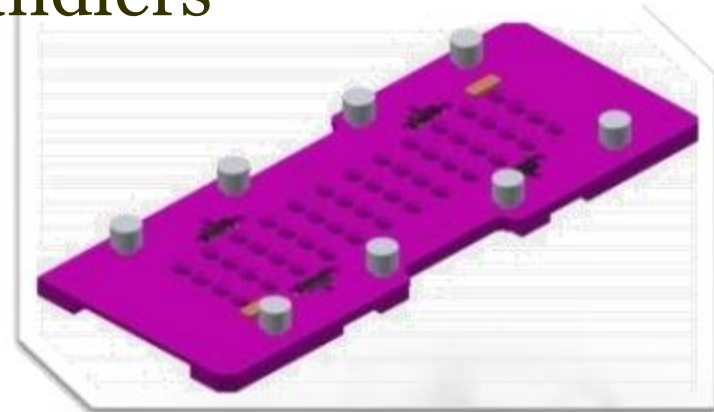

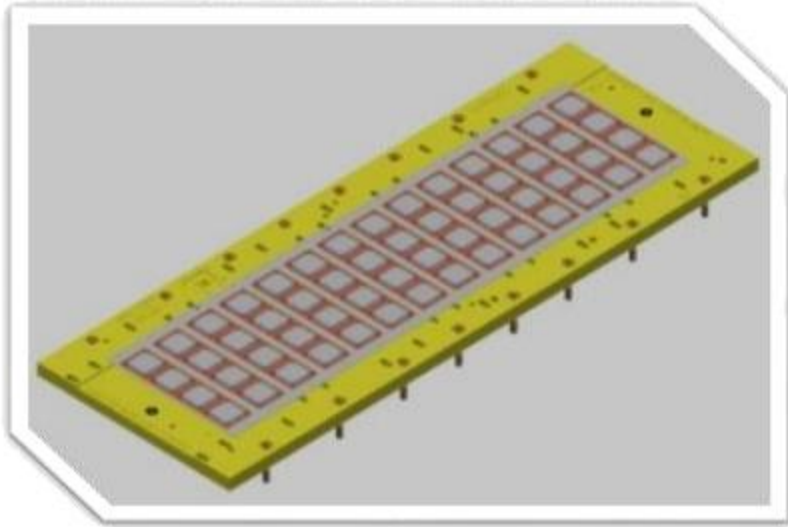

Our Products

- Test contactor - Strip, Singulated, and Oil Bath IC Test Contactor
- Handler Change Kits: Complete set and/or consuming parts - Nests, Shuttles, Boat etc.
- Engineering Bench Test Jigs
- Loadboard Stiffener
- Contactor Cleaning Tool and Accessory .
- Test pin - Pogo, Solid pins
- Miscellaneous Fabrication Parts .
- Printed Circuit Board (PCB)

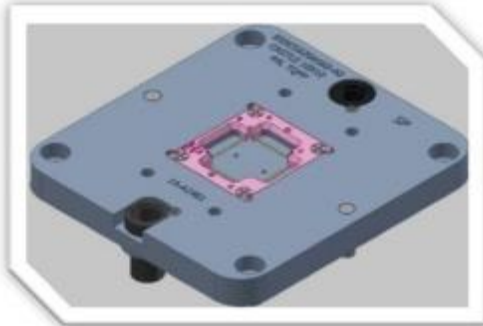

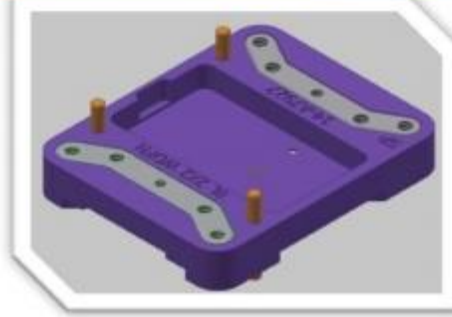

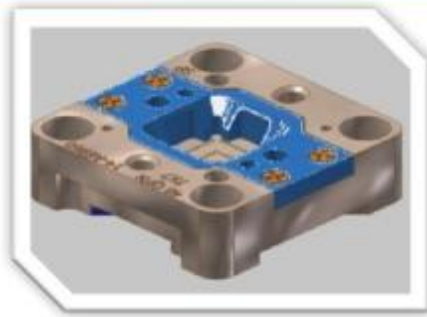

Our Products: Strip Test Contactors

- All package types and handlers

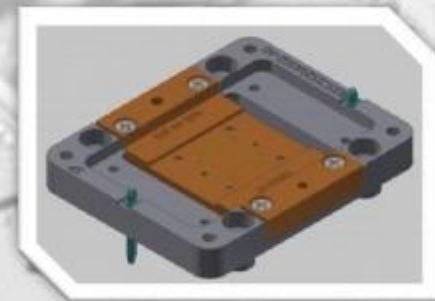

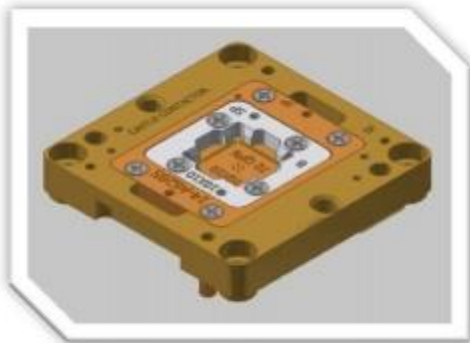

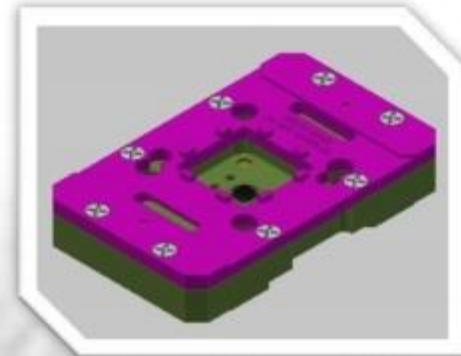

Our Products: Sigulated Test Contactors

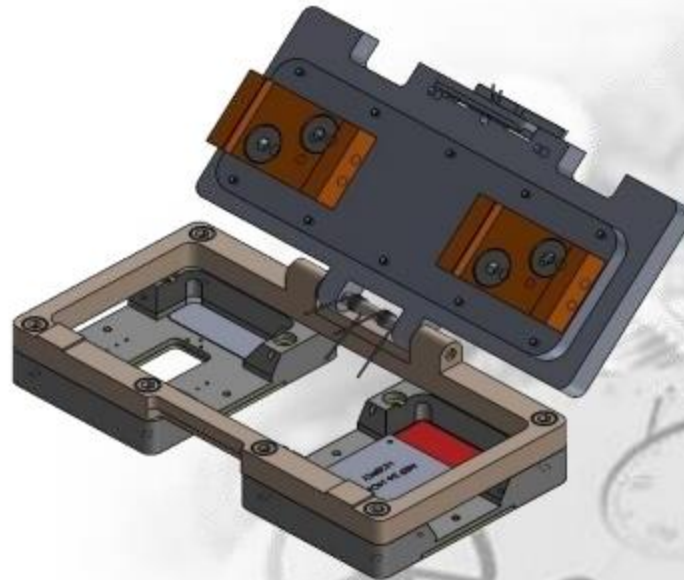

We provide products & services with the following capabilities:

- Design test contactor for any kind of package to suit our customer needs.
- Manufacture precise test contactor that gives the optimum test results.
- Improve test contactor design to achieve maximum cost saving for customer.
- Include all package types and handlers

Our Products: Manual Test Set (Actuators + Contactors)

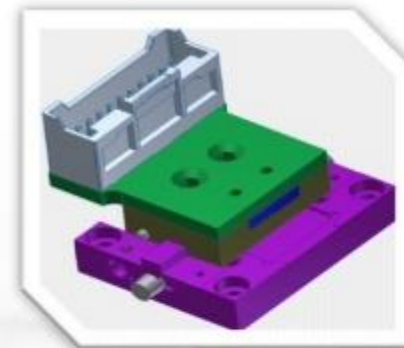

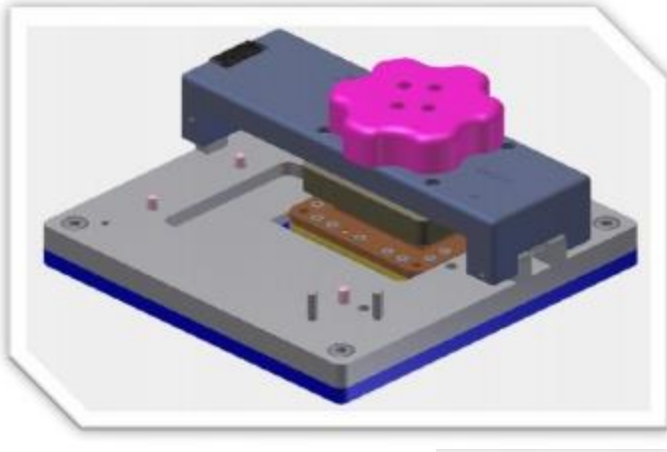

Our Products: Custom Design Test Jig

(For both production and engineering bench test)

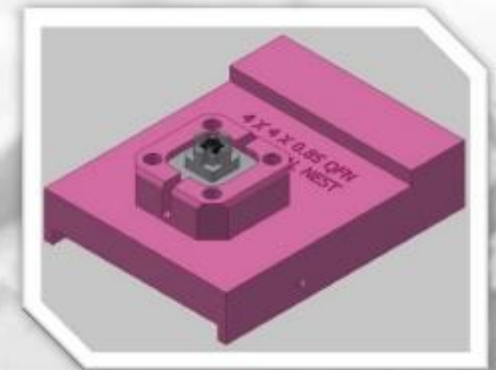

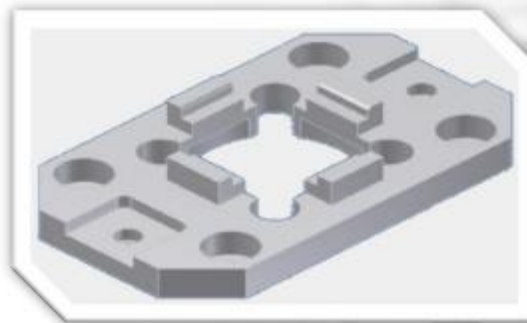

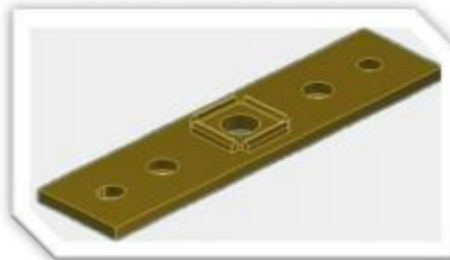

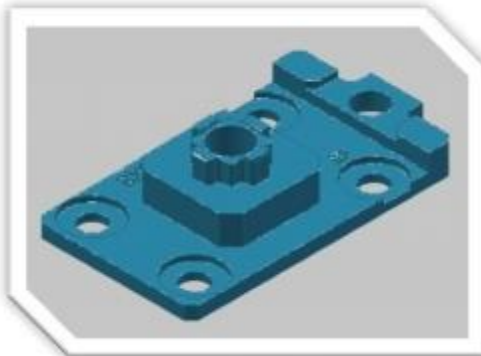

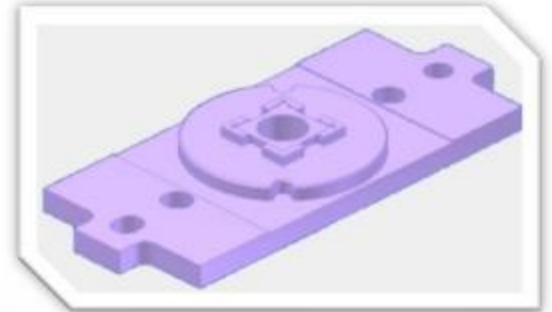

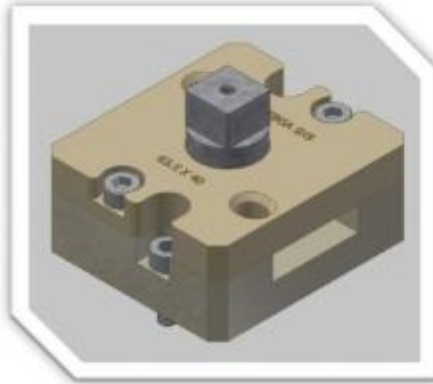

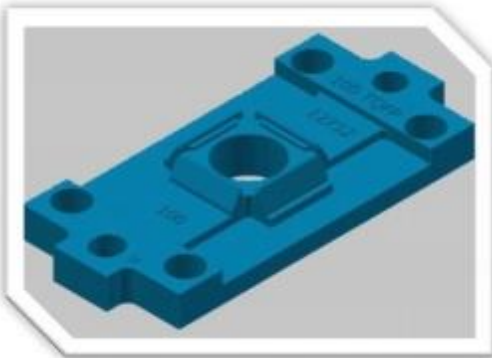

We design what you need Creatively, Ergonomically and Trouble-free.

Our Products: Nests

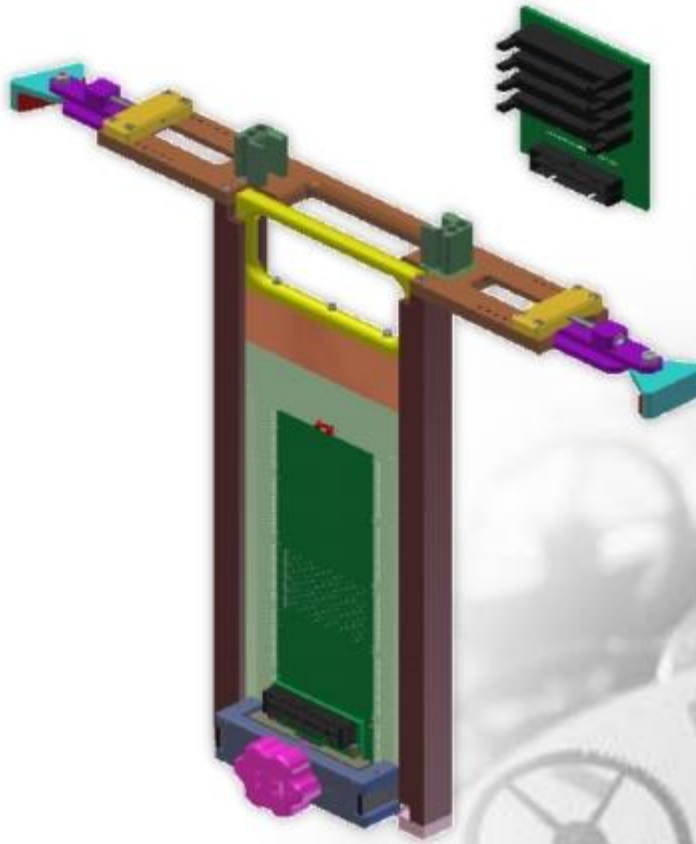

(Available for various type of handlers)

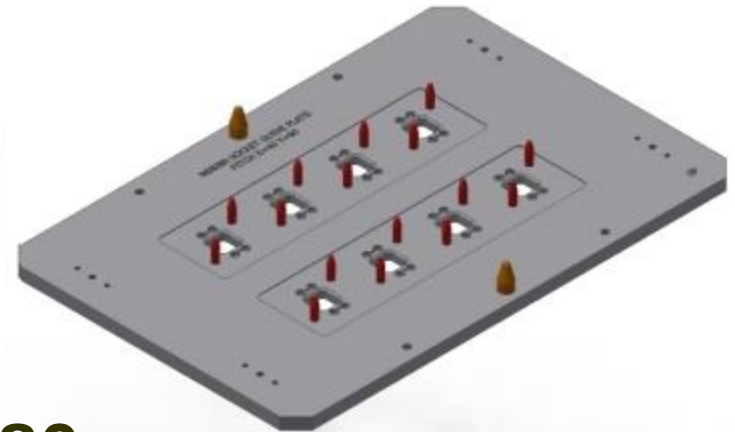

Our Products: Oil Bath Test Contactors

- All package types and handlers

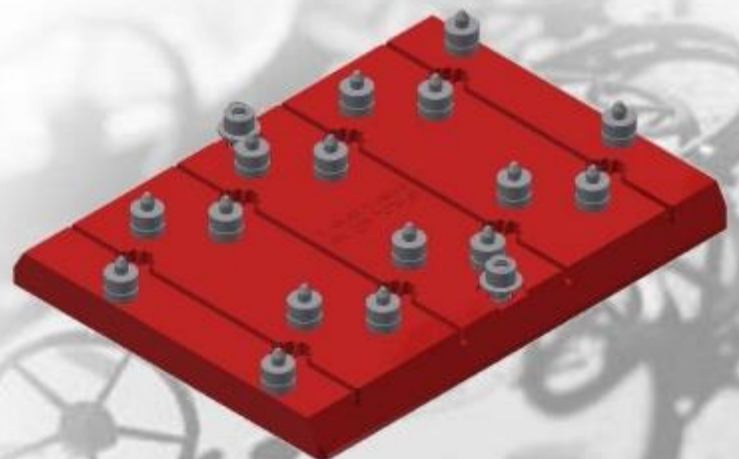

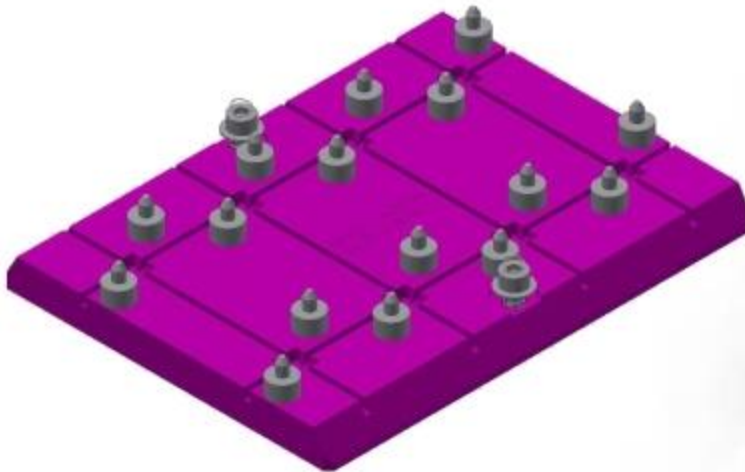

Conversion Kits

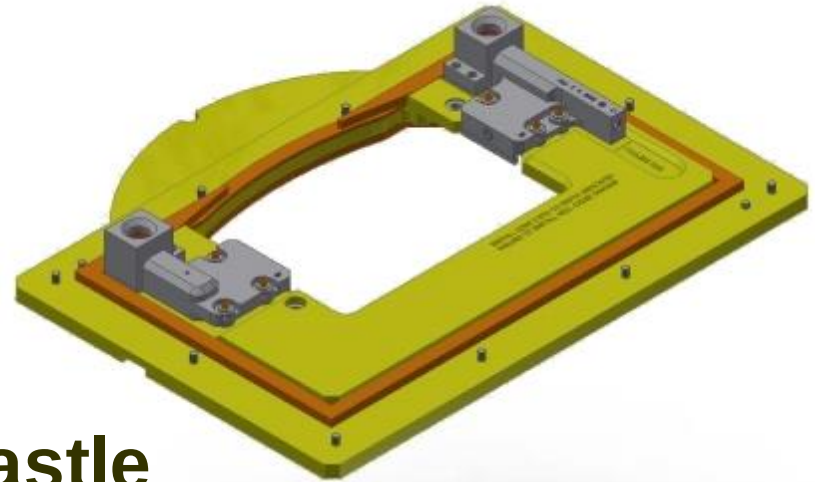

EPSON NS8080

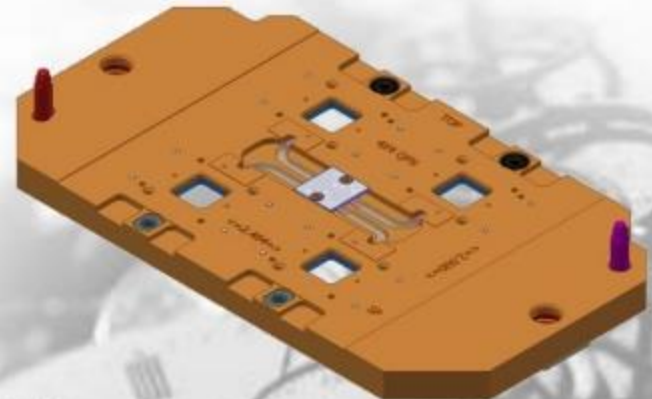

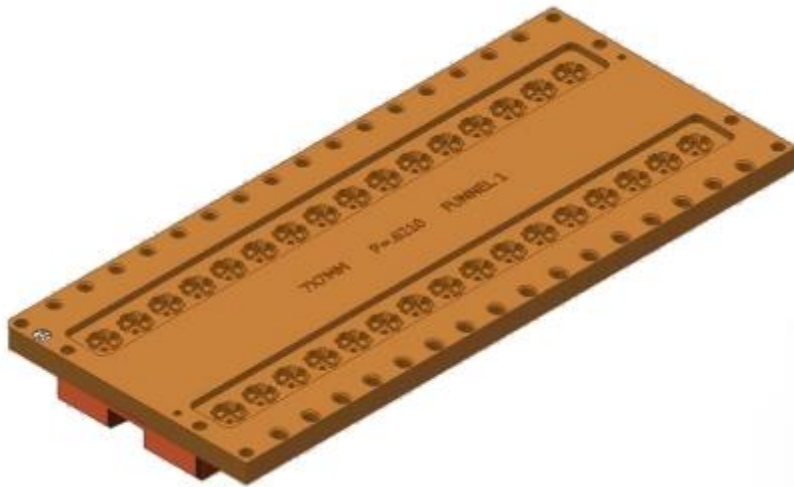

Conversion Kits

Our Products: Product Materials

- **METAL:** Common Materials
 - ALU 6061, SUS 303/304, Brass, DF-2, Beryllium Copper, MIC 6, Copper and other machinable metal.
- **Engineering PLASTIC:** Common Materials
 - Vespel SP-1, Ultem 2300/1000, Peek 1000, Torlon 5530/4201/4301
 - Teflon, Rulon, Delrin, Nylon, PPS and other machinable engineering plastic.
- **Special Materials:**
 - Ceramic, 45-Zirconia, Sapphire

*We design what you need **Creatively,**
Ergonomically and **Trouble-free.***

Our Facilities

Our unique capabilities include:

- ❖ High Speed CNC Milling
- ❖ CNC Turning
- ❖ CNC Turn & Mill
- ❖ Precision Lathe Turning
- ❖ Precision Vertical Milling

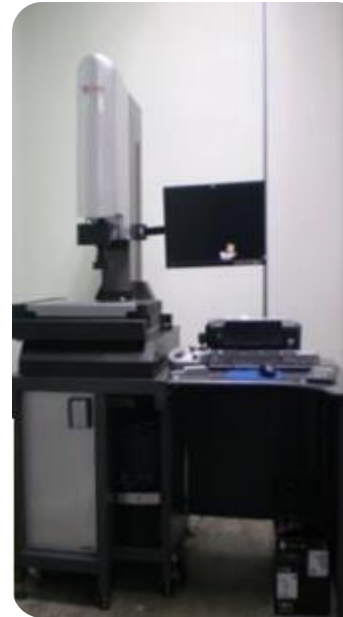

Our Quality

We believe that quality is the highest defining factor in which our products and services can be measured. The main priority for our business is to fulfil customer 's needs and expectations as stated in our Quality Policy:

To provide products and services that exceed Customer's Requirement through:

- 1.Component people in competent system**
- 2.Continuous improvements and developments**

THANK YOU
